

### Tailor-made business solution for your translation business.

Would you like your business and work processes to be automated and controlled centrally? Lingonaut has the perfect workflow for this. With customisable configuration – even in your corporate design. Easy to integrate and upgrade.  
With interfaces for CAT, SDL Studio and DATEV.

### Professional project management, with an overview at all times.

Lingonaut takes care of the administrative work for you – from quote calculation and the delegation of work packages to accounting.  
This allows you to work on all kinds of project simultaneously, with a complete overview at all times.

### More rapid response times. Automatically.

Lingonaut knows the qualifications and the specialist knowledge of your translators and suggests them in accordance with their suitability and availability. This gives every client the best possible outcome in the shortest possible time.

### Less work. More business.

Lingonaut saves your resources and reduces your administration management to a minimum. In addition to the handling of your projects, Lingonaut also takes care of the entire back office for you.  
Indispensable for competitive translation companies.
